Power:	100–240VAC @ 50–60Hz, auto-switching
Dimensions:	19 (W) x 1.75 (H) x 17.5 (L) in. (483 x 44.5 x 445mm)
Weight:	25.1 lbs. (11.4kg.)
Display Type:	17" TFT/LCD active-matrix, color
Resolution:	Up to 1280x1024@65Hz
Video Type:	VGA
Contrast Ratio:	350:1
Brightness:	250 cd/m2 typical
Pixel Pitch:	0.264 (H) x 0.264mm (W)
Panel Color:	16.2 million display colors
Viewing Angle:	115° (Horiz.)/90° (Vert.)
Keyboard Type:	Laptop-style, integrated, high-quality, 105-key keyboard with touch pad
Operating Life of Individual Keys:	8 million cycles
CPU Port Type:	HDDB15 (VGA), miniDIN6 (PS/2)
CPU Platforms:	VGA, PS/2
Keyboard Output:	miniDIN6 (PS/2)

2. Installation

STEP 1: Remove the contents from the box.

STEP 2: Install the rack-mount brackets to the LCD Rack Console.

STEP 3: Mount the LCD Rack Console to your rack or cabinet.

STEP 4: Connect the IEC power cable to an active power outlet.

STEP 5: Connect your VGA and PS/2 cable kit to the LCD Rack Console.

STEP 6: Connect your VGA and PS/2 cable kit to your KVM switch or server.

STEP 7: Power up the LCD Rack Console.

STEP 8: Power up your KVM switch or server.

3. FAQ/Troubleshooting

My LCD Rack Console doesn't appear to be on.
Make sure that the power switch located at the front of the LCD drawer is in the "on" position and that the power cable is properly plugged in.

Do I have to install any software to use the LCD Rack Console?
No, the LCD Rack Console does not require any drivers or software to be installed in your servers. Simply connect the LCD Rack Console directly to a server or KVM switch and it is ready for use.
